Room 3E40  
Washington, D. C. 20505

Dear

As per our phone conversation of November 14, 1984, enclosed you will find 4 copies each of our drawings B-42482-2,3&4.

We hereby request permission to install 1935' of 8" wrapped steel and 765' of 6" plastic high pressure service as detailed on the above drawings. This service is being installed to provide gas service to the incinerator building addressed as

All reasonable precautions will be taken to protect government property and restoration will be made to all disturbed areas.

Your earliest reply would be greatly appreciated. If there are any questions or problems, please call me at (703) 750-5149.

Thank you,

R. A. Gillespie, Jr.
